GT15 PROTECTIVE SHEET
User's Manual

Thank you for purchasing the GOT1000 Series.

Prior to use, please read both this manual and detailed manual thoroughly to fully understand the product.

[SAFETY PRECAUTIONS]
Always follow the precautions of both levels because they are important to personal safety.

[INSTALLATION PRECAUTIONS]
- CAUTION
- When attaching the protective sheet onto the GOT display section, make sure it fits the protective sheet onto the section closely without leaving any clearance between them. Failure to do so may cause a malfunction.

[STARTUP AND MAINTENANCE PRECAUTIONS]
- CAUTION
- Daily check the protective sheet with eyes. When you find extreme dirt or scratches on the surface, immediately replace it with a new protective sheet. Using the protective sheet of decreased visibility may cause a malfunction.

[DISPOSAL PRECAUTIONS]
- CAUTION
- Dispose of this product as industrial waste.

Note that the CAUTION level may lead to a serious accident according to the circumstances. Always follow the precautions of both levels because they are important to personal safety. Please save this manual to make it accessible when required and always forward it to the end user.

3. Installation Procedure
(1) Remove the old protective sheet from the GOT, and clean the GOT surface. (Peel the protective sheet off slowly.)

(2) Peel the release paper from the back of the new protective sheet, and attach its adhesive side to the GOT display section. When attaching the protective sheet, make sure it fits the protective sheet onto the display section closely without leaving any clearance between them.

(3) Peel the protective film off the protective sheet.

Warranty
Mitsubishi will not be liable for damage caused by factors found not to be the cause of Mitsubishi's damage or loss, damage caused by faults in the Mitsubishi products, damage, secondary damage, accident compensation caused by special factors, and other damage not attributable to Mitsubishi; damages to products other than Mitsubishi's products and to other objects.

For safe use:
- This product has been manufactured as a general-purpose part for general industries, and has not been designed or manufactured to be incorporated in a device or system used for purposes related to the health and safety of individuals.
- Before using the product for special purposes such as nuclear power plants, electric power plants, aerospace, marine, or passenger transportation vehicles, consult with Mitsubishi.
- This product has been manufactured with strict quality control. However, when installing the product where major accidents or loss could occur if the product fails, install appropriate backup or fail-safe functions in the system.

3. Installation Procedure
