Before using this product, please read this manual and the relevant User's Manual for transfer of the OS and project data.

Refer to the User's Manual for the general specifications of the CF card and memory card adaptor.

The general specifications of the CF card and memory card adaptor are the same as those of the GOT.

Compliance with the new China RoHS directive

Note: This symbol used in China only.

Compliance with the new China RoHS directive

Refer to the User's Manual for the GOT used for the general specifications of the CF card and memory card adaptor.

4.3 Precautions for Installing and Removing the CF Card

1. Write the CF card access LED to 0, do not insert the CF card or power off the GOT.
2. Do not remove the CF card access LED when the CF card access LED is turned off. (When the CF card access LED turns off, the CF card can be removed even during the GOT power on.)

4.2 Removing the CF Card

1. Turn the CF card access switch of the GOT off, and make sure the CF card access LED has been turned off. (When the CF card access LED turns off, the CF card can be removed even during the GOT power on.)
2. Push the CF card eject button of the GOT. (The CF card eject button is pulled out after pushing at once.)

4.1 Installing the CF Card

1. Turn the CF card access switch of the GOT off.
2. Open the cover of the CF card interface. Insert and install the CF card into the CF card interface with its front side outside. *1
3. Close the cover of the CF card interface. Set the CF card access switch to ON.

[STARTUP AND MAINTENANCE PRECAUTIONS]

Never disassemble or modify the CF card and memory card adaptor. If so, it may cause a failure, malfunction, injury or fire.

Before touching the CF card or memory card adaptor, be sure to turn off the power and wait until it is at room temperature. To avoid static electricity from human body. Failure to do so may cause a malfunction or damage of the device.

[DISPOSAL PRECAUTIONS]

Dispose of this product as industrial waste.

WARRANTY

Mitsubishi Electric will not be held liable for damage caused by factors not attributable to Mitsubishi Electric such as damage or loss caused by faults in the Mitsubishi Electric products; damage, secondary damage, accident compensation, etc., incurred by users or third parties as a result of using the products other than Mitsubishi Electric products; and to other duties.

For safe use

This product has been manufactured as a general-purpose product for general industries, and has not been designed or manufactured to be incorporated in a device or system used in purposes related to safety or human life. Before using the product for special purposes such as nuclear power, space, aerospace, avionics, transportation, medical, healthcare, safety systems, etc., consult with Mitsubishi Electric.

This product is manufactured under strict quality control. Due to the very nature of the semiconductor devices, even if the product meets all the specifications, some failures (such as failures in lifetimes) might occur if the product is used under unusual stress or in harsh conditions.

Mitsubishi Electric will not be made responsible for the damage due to operation outside the following items specified in the manual.

2. The user modified or repaired the product.

This product has been designed and manufactured to be incorporated in a device or system used in purposes related to safety or human life.
