3. INSTALLATION PROCEDURE

1) If the old protective sheet is attached, remove the sheet from the lower right of the GOT, and clean the GOT surface. ( Peel off the sheet slowly.)

2) Feel the release paper off the back of the new protective sheet. With the protective film side on the sheet surface, attach the sheet on the GOT so that the USB environmental protection cover hole is just on the USB environmental protection cover of the GOT.

3) When attaching the protective sheet, make sure to fit the sheet on the GOT without leaving any clearance between the sheet and the GOT.

4) Remove the protective film from the protective sheet. When the user continues using the GOT with the protective film, the film may not be removed.

5) Sometimes the protective sheet is attached to the protective film. If so, remove the protective sheet from the protective film.

[INSTALLATION PRECAUTIONS]

CAUTION

- When attaching the protective sheet onto the GOT display, make sure to fit the protective sheet into the section of the GOT. If it is not fitted, the screen may be distorted and the display may be damaged. Failure to do so may cause a malfunction. 
- When attaching the protective sheet, remove the protective film. When the user continues using the GOT with the protective film, the film may not be removed.

[STARTUP AND MAINTENANCE PRECAUTIONS]

CAUTION

- Daily check the protective sheet with eyes. When you find scratches or scuff marks on the surface, immediately replace it with new one. Using the protective sheet of decreased visibility may cause a malfunction.

[DISPOSAL PRECAUTIONS]

- Dispose of this product as industrial waste.

Note that the CAUTION level may lead to a serious accident according to the circumstances. Always follow the precautions of this level because they are important to personal safety.
