1. OVERVIEW

This manual contains information and instructions for using the Multimedia unit. For the installation and configuration of the GT Works3 operating software, refer to the GT Works3 Version 1 User’s Manual for GOT. The manuals for this manual are stored in the DVD-ROM for the screen design software used.

2. SPECIFICATIONS

- The following shows the performance specifications of the Multimedia units. The general specifications of the Multimedia units are the same as those of the GOT. For details about the general specifications of the Multimedia units, refer to the GT Works3 Version 1 User’s Manual (Manual name SH-081200ENG).
- For the detailed specifications of the Multimedia units, refer to Design(20703).Help.(20703).Help.

3. PART NAMES AND EXTERNAL DIMENSIONS

3.1 Multimedia Unit

4. INSTALLATION AND REMOVAL PROCEDURE

4.1 Cable Connection

1. Connect the cables of the sound I/O devices to the Multimedia unit.
2. Set the controller settings.
3. Connect the cables to the Multimedia unit. Refer to the manual (This manual) for details of the connections.

4.2 Unit Installation

1. Turn on the power of the Multimedia unit.
2. Insert the Multi-Link cable into the unit from the rear side. Make sure the terminals are properly inserted.
3. Connect the power cable to the Multimedia unit.

5. CF CARD INSTALLATION/REMOVAL PROCEDURE

1. Open the CF card cover and take out the CF card (if the card is inserted).

6.2 For removing any extension unit on Multimedia unit, remove the connector cover using the provided screwdriver. After removing the extension unit, put the Multimedia unit on the Video Interface Converter Unit to be used. For selecting other functions, refer to the Multimedia unit manual.

7. WARRANTY

Mitsubishi Electric will not be held liable for any damage caused by factors beyond the control of Mitsubishi Electric, such as data damage or loss caused by failure to follow the instructions in this manual, failure to follow the instructions or guidelines described in the manuals for this product, or use of the product in an unapproved manner.

8. SERVICE

- The product has been manufactured as a general-purpose part for general industries, and has not been designed or manufactured to be incorporated into a system or be used in systems related to safety.
- Before using the product for special purposes such as nuclear equipment, data control equipment, aircraft, or other movement vehicles, consult with Mitsubishi Electric.
- This product has been manufactured under strict quality control. However, when installing the product where major accidents or damage to human life or property may result, install appropriate backup equipment so that the product can be used in a safe manner.

9. TECHNICAL SUPPORT

For any questions or concerns about the product, please contact the Mitsubishi Electric representative in your area.
