Safety Precaution (Read these precautions before using.)

Before using this product, please read this manual and the relevant manuals introduced in this manual carefully and pay full attention to safety to handle the product correctly. The precautions given in this manual are concerned with this product. In this manual, the safety precautions are ranked as “WARNING” and “CAUTION”.

WARNING Indicates that incorrect handling may cause hazardous conditions, resulting in death or severe injury.

CAUTION Indicates that incorrect handling may cause hazardous conditions, resulting in medium or slight personal injury or physical damage.

Depending on circumstances, procedures indicated by “CAUTION” may also be linked to serious results. In any case, it is important to follow the directions for usage.

DISPOSAL PRECAUTIONS

WARNING

• When disposing of the product, handle it as industrial waste.

MOUNTING PRECAUTIONS

WARNING

• Be sure to shut off all phases of the external power supply used by the system before mounting or removing the GOT to/from the panel. Not doing so can cause the unit to fail or malfunction.

Related Manuals

When using the emergency stop switch guard cover, prepare the following manual as well.

As Handy GOT User's Manual is sold separately, inquire at our local distributor for it.

For the manuals relevant to GOT1000, refer to the PDF manuals stored in the screen creation software used. For details about a PLC to be connected, refer to the manuals of PLCs respectively.

1. Overview

The emergency stop switch guard cover is attached to prevent the emergency stop switch from being operated incorrectly. The following emergency stop switch guard cover is applicable for the Handy GOT.

<table>
<thead>
<tr>
<th>Model name</th>
<th>Contents</th>
</tr>
</thead>
<tbody>
<tr>
<td>GT11H-50ESCOV</td>
<td>mounting screw (M3×6) × 1</td>
</tr>
</tbody>
</table>

2. External Dimensions

![External Dimensions Diagram](Image)

3. Installation Procedure

1) Remove the Handy GOT from the device or turn the entire system power OFF. (Make sure that the device does not operate even if the emergency stop of the Handy GOT is activated while mounting the emergency stop switch guard cover.)

2) Insert the inner lateral projection into the hole of the Handy GOT and fix the cover to GT11H-50ESCOV with the accessory screw (M3×6) at the top.

(Tightening torque: 36 to 48 N·cm)

4. Operating atmosphere

Must be free of lamp black, corrosive gas, flammable gas, or excessive amount of electro conductive dust particles and must be no direct sunlight. (Same as for saving)

General specifications other than the above are same as those of the GOT main unit.

Refer to the following.
