Installation

- Confirm before installation
  - Log on to the personal computer as an administrator.
  - Close all running applications before installation. If the product is installed while other applications are running, it may not operate normally.
  - Before installing EtherNet/IP Configuration tool, check that GX Works3 has been installed. If not installed, install GX Works3 first, and then install EtherNet/IP Configuration tool.
  1. Unzip the compressed folder.
  2. Double-click “setup.exe” in the unzipped folder to start the installer.
  3. Select or enter the necessary information by following the on-screen instructions.

- Precaution
  - When EtherNet/IP Configuration tool is installed, “Windows protected your PC” can be displayed and the installation is interrupted. In this case, click “Run anyway” button to continue the installation.

Uninstallation

Uninstall EtherNet/IP Configuration tool from the control panel of Windows.
